4th Central European Geomorphology Conference

October 9-13, 2017

From surface to core
– and back. A geodynamic view
on Earth's surface

- Processes and interactions between core-mantle boundary and crust
- Cretaceous and Cenozoic intraplate volcanism in Europe
- Interplay of endogenous and exogenous processes, climate change, and their feedbacks
- Glaciations: Shaping the earth's surface and feedbacks with the lithosphere and the asthenosphere
- Geomorphological risk assessment
- „Anthropocene“:
Shaping of earth's surface by man
